# LED REMOTE READING DIGITAL THERMOMETERS

Where customers prefer LED, Weiss offers our 2" retrofit unit, the 20DT. Now with 120Vac direct power (no transformer needed) and 1/2" high intensity red readout. All the digital thermometers are NSF listed. Both units feature a 9V DC battery back-up circuit that will display the temperature during a power outage (up to 36 hours).

Weiss Instruments is the leader in Solar Powered technology\* as we now offer seven different versions of our Digital thermometers. Available in low light version 56SD, (15 Lux) 25SD, 72SD, (30 Lux) and Series 20SD (75 Lux). These "self powered" thermometers operate without any batteries and offer an attractive and modern update to existing refrigeration equipment. Each thermometer has adjustable calibration, a ten second update time and wide ambient temperature specifications for both indoor and outdoor installations.

# UNION CONNECTED DIAL THERMOMETERS

45BL-100

Offered in 3 1/2" and 4 1/2" dial sizes the Series BL is furnished with braided copper capillary and a 1/2" NPT brass union connection. Sensor bulb insertion is 2 5/8" below the mounting thread.

Case configuration is stainless steel back flange type for wall or surface mounting, capillary outlet at case bottom.\*

The Series BL construction is well suited to applications such as hot and chilled pipeline systems, tanks, coolers and air ducts.

# DIGITAL VARI-ANGLE THERMOMETERS

The Weiss patented,\* Digital Vari-angle® Thermometer maintains the strict requirements for thermometers in hydronic applications in that they're self-powered and within 1% accuracy. This reliable series of digital thermometers offers the added feature of stem assemblies for direct replacement of mercury-in-glass types where environmental concerns exist. Whether on new installations or replacements, our Vari-angle Digital Thermometers include the same level of quality that the industry associates with the Vari-angle trademark and all Weiss Products.

\*Patent No. 5,196,781 ©Vari-angle is a registered trademark of Weiss Instruments, Inc.

# INFRA-RED THERMOMETERS

IR141

This Professional Grade Infra-red Thermometer is one of the most advanced units manufactured today. Using the remote dual point Infa-red Thermometer gets the job done quick, accurate and safe. It's easy to use and applicable for almost any temperature measurement, including HVAC balancing, motor temperatures, air conditioning and hot/chilled water pipe lines.

# TEMP / PRESSURE TEST PLUGS

Weiss Temperature/Pressure Plugs allows for quick, efficient and accurate testing of hydronic pipe lines throughout HVAC systems. Offered in both norden (blue cap) for hot and chilled water and neoprene (red cap) for natural gas. Weiss plugs are consistently rated at 1000 psi. The self-sealing core insures long life and continuous service.

# AMMONIA GAUGES

• Heavy Duty Internals on 4 1/2" Gauges

• Stainless Steel Case

These gauges are designed for the pressure measurement of any system or equipment charged with ammonia. Most dials are furnished with corresponding temperature scales. Black inner arc indicates pressure. Red outer arc indicates corresponding temperature. All gauges are equipped with restrictors to protect the gauges against pulsating pressure.

# DIAPHRAGM GAUGES

The Weiss Series DG Gauges are used in the measurement of pressures below 10 psi. This line of diaphragm gauges offers an instrument highly sensitive yet durably constructed. Utilizing a thin walled copper-alloy, the diaphragm senses slight pressure or vacuum and expands or contracts. The action of the element is quickly and accurately indicated within 1.5% of full scale range. Some of the uses are filter monitoring, leak testers and LP gas.

CASE-Black drawn steel, with twist lock polycarbonate window. DIAPHRAGM-Copper alloy.

SOCKET-Brass, 1/4" NPT lower or center back connection. MOVEMENT-Brass.

SIZE -2 1/2" DIAL-White coated metal lithographed with black graduations lines and numerals. POINTER-Balanced design, aluminum in black finish.

# TRADE LINE GAUGES

Weiss TL Gauges are intended for general service conditions, for pressure or vacuum on air, oil, water, gas or other mediums that do not attack brass. TL Gauges are furnished in drawn steel cases, finished in black. The 1 1/2" dials are supplied with 1/8" NPT and 2" dial versions are available with 1/4" or 1/8" NPT connections. All other dial sizes are 1/4" NPT. All gauges conform with ANSIB40.1 accuracy Grade B-2% mid scale.

Throughout the 20th century, the Weiss name has been synonymous with quality and reliability in instrumentation. Some of the products we have manufactured for more than 133 years are proudly illustrated in this catalog, dedicated to your requirements in the air-conditioning, refrigeration and heating industry. Whether you require instruments for temperature or pressure monitoring, the Weiss line offers a full range of outstanding products from which to choose. Our commitment to quality extends well beyond the products we provide. Each day we strive to offer our customers responsive service and reliable deliveries, qualities so necessary in today's business climate. Weiss understands the trends of today's market and we look forward to proving our ability to react to the daily challenge.

**Quality products, Responsive service, Reliable delivery . . . Your customers demand it, the Weiss HVAC/R program provides it.**

The Weiss Corrugated Display is eye-catching and can be set-up in high traffic areas. The versatile display allows for easy placement of packages for a neat and uniform look to showcase the instruments.

The packaging allows a full view of the package contents and is suitable for counter standing display.
